

Rules

1. Teams of up to three members can participate in the hackathon. There is no registration fee for the event.
2. Participants have to be college or school students, which would be verified by their student ID cards. Cross-college teams are allowed.
3. A total of three themes will be announced on the spot. A team is allowed to choose one or a combination of the given themes.
4. The task is to develop a working software application on the chosen theme. A team is allowed to choose a platform and technology stack of their choice.
5. The team should be ready with the application and the platform for their demo(s). For example, if you are creating an Android application – please be ready with an Android smartphone. The application will be tested on other devices as well.
6. The decision of the organizing committee and judging panel is final and binding.
